

Mighty Hoop Backing Holder Instructions

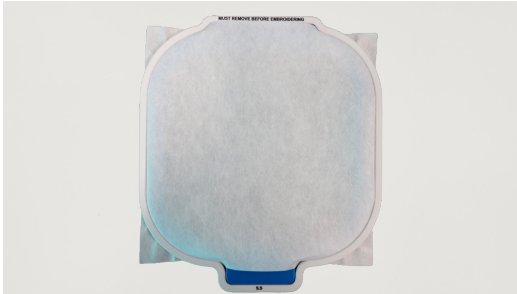

Step 1.

Place the bottom ring of your Mighty Hoop on a flat surface.

Step 2.

Lay a piece of stabilizer on top of the bottom ring, ensuring it fully covers the ring. This provides even tension across the entire hoop.

Step 3.

Select the Backing Holder that corresponds to the size of the Mighty Hoop you are using and place it around the bottom ring.

- a. Medium weight stabilizer works best when using Backing Holders

Step 4.

Slide the bottom ring, with the stabilizer and Backing Holder, into the item you are hooping. Position it where you want to embroider, then hoop the item by placing down the top ring of the Mighty Hoop.

Step 5.

After hooping the item, remove the Backing Holder before placing the hoop onto your embroidery machine.
